

## **ACADEMIC CALENDAR FOR ACADEMIC YEAR 2023/2024.**

- The academic (study) year is organized in two semesters: winter and summer semester.
- 15 weeks of classes are organized in one semester, for a total duration of 30 weeks of classes in the academic year.
- During the study year, the student follows classes in the form of: lectures, exercises, seminars and student's practice. Students' practices are organized as an integral part of classes in the final year of study. The remaining weeks of the study year are scheduled for holding other forms of teaching in the form of group consultations, completion of certain study obligations, final exams and breaks between semesters.
- The time and method of conducting individual classes and exams are determined by the semester schedule (which is an integral part of the academic calendar). The semester schedule of classes and exams is determined according to the amount of work required for the successful completion of each individual course expressed through ECTS points.
- Colloquiums are organized at the times determined for teaching. The colloquium organization schedule can be changed within the deadlines established for teaching.
- When determining the semester schedule of classes and exams, it is taken care to coordinate the dates of taking the colloquium and final exams, so that two colloquiums or two exams cannot, as a rule, be organized in one day.
